
UND SMHS Strategic Plan Individual Unit Report for 2022

GOAL 3 for **Psych and Behavioral Science**

LEARNING

One UND Strategic Plan Goal 3: *Deliver more educational opportunity online and on-campus.*

UND SMHS Strategic Plan Goal 3: *The SMHS will identify opportunities to employ state-of-the-art technologies to enhance education.*

1. Describe if/how your unit has addressed this goal.

As in past years, we continue to deliver telepsychiatry experiences for students and residents, but primarily the latter. We continue to be involved in virtual training for the region on Behavioral Health issues through our association with the SAMHSA grant-funded MHTTC (Mental Health Technology Transfer Center) program.

We have developed a new Project ECHO clinic with a focus on behavioral health in primary care settings.

2. Describe how your efforts are being assessed.

Number of sites providing telepsychiatry training, number of presentations and development of products through MHTTC.

Development of new Project ECHO programs

3. Describe how your unit analyzed these data and what assessments were determined.

Telepsychiatry and MHTTC continue and the above have been reviewed. Residents have provided feedback on the value of outreach. MHTTC surveys on behavioral health presentations have been rated highly.

Project ECHO clinics include feedback surveys; our new program has just started.

Our Grand Rounds program was noted in Goal #3, but clearly has elements here as well.

4. Describe how your unit will implement any further changes and what barriers may exist.

We will evaluate the benefit of the new Project ECHO program. A primary barrier will include the challenge of engaging very busy clinicians (target audience) in participation.

PROVIDE A RATING OF YOUR PROGRESS ON THIS GOAL:  **On Track;**  **Delayed;**  **Behind**

(additional space for text is provided on page 3 if needed)

Additional Information on Goal 2 (optional):

See above.
