1. Describe if/how your unit has addressed this goal.

Incorporation of wellness and diversity-related material into the medical program curriculum, with some in curriculum 1.5 and more anticipated in curriculum 2.0.

2. Describe how your efforts are being assessed.

GQ data on student satisfaction with preparation for diversity.

3. Describe how your unit analyzed these data and what assessments were determined.

This survey lags behind actual changes by a few years. Nevertheless, it is clear that more work needs to be done in this area.

4. Describe how your unit will implement any further changes and what barriers may exist.

We are working to expand both wellness activities and curricular material on diversity and social determinants of health. One barrier has been COVID, which has interfered with the Associate Dean for Diversity Equity and Inclusion's interactions with local tribal health care environments to discuss options for having students spend time there.
