Calling in to the UND Videoconferencing Bridge

To call into the UND Video bridge, use the Polycom remote, and dial 134.129.203.45. If you cannot find a place to enter the number, you may need to press the Home button, designated by a house image on the remote.

A successful call will result with this on your screen.

From here, press the “Far” button on your remote, then use the Up or Down arrows to move to the conference of your choice. Then use the Right arrow key to join the conference.

For the Family Medicine Clerkship on Thursdays, you will join “FamMed Clerkship Rotation.” If you cannot join the conference, just give me a call once you are connected and I can join you from my end.

Any question, please call or email
