Student Bloodborne and Biological Pathogen Exposure Management
For all SMHS Students

Section: 3
Policy number: 3.8
Responsible Office: Dean’s Office
Issued: 02.04.14
Latest Review: 07.29.17

POLICY STATEMENT

In the event of a bloodborne or biological pathogen exposure, the School of Medicine and Health Sciences (SMHS) students will follow the SMHS Student Bloodborne and Biological Pathogen Exposure Management Plan. The student’s responsibility is to immediately inform their instructor, clinical site supervisor and / or preceptor. Students are required to comply with the reporting requirements, incur the charges of their bloodborne or biological pathogen exposure testing, and complete follow-up recommendations given by their health care provider.

REASON for POLICY

To provide a clear and concise guide for managing students exposed to bloodborne or biological pathogens during educational activities administered by the University of North Dakota School of Medicine and Health Sciences.

SCOPE of POLICY

This policy applies to:
✓ Deans, Directors, and Department Heads
✓ Faculty
✓ Managers and supervisors
✓ Staff
✓ Students
✓ Others:

Other potentially infectious materials/biological pathogens

Include but are not limited to:

1. The following human body fluids: semen, vaginal secretions, cerebrospinal fluid, synovial fluid, pleural fluid, pericardial fluid, peritoneal fluid, amniotic fluid, saliva in dental procedures, any body fluid that is visibly contaminated with blood, and all body fluids in situations where it is difficult or impossible to differentiate between body fluids.

2. Any unfixed tissue or organ (other than intact skin) from a human (living or dead); and

3. HIV-containing cell or tissue cultures, organ cultures, and HIV- or HBV-containing culture medium or other solutions; and blood, organs, or other tissues from experimental animals infected with HIV or HBV.

4. Airborne pathogens such as tuberculosis (TB).

Contaminated

The presence or the reasonably anticipated presence of blood or other potentially infectious material on an item or surface.

Contaminated Sharps

Any contaminated object that can penetrate the skin including, but not limited to, needles, scalpels, broken glass, broken capillary tubes, and exposed ends of dental wires.

PRINCIPLES

I. In the event of a bloodborne or biological pathogen exposure, the School of Medicine and Health Sciences (SMHS) students will follow the SMHS Student Bloodborne and Biological Pathogen Exposure Management Plan. The student’s responsibility is to immediately inform their instructor, clinical site supervisor and/or preceptor. Students are required to comply with the reporting requirements, incur the charges of their bloodborne or biological pathogen exposure testing, and complete follow-up recommendations given by their health care provider.

II. The Student Bloodborne & Biological Pathogen Exposure procedure provides management for University of North Dakota SMHS students with occupational blood exposures according to currently recommended guidelines by the US Public Health Services. The procedures below describe the action that must be taken in the event that bloodborne or biological pathogen exposure has occurred. In accordance of UND Section 1: General Safety, Incident Reporting policy, incident reporting of all injuries is required within 24 hours.

III. Academic supervisors who witness the incident, or are immediate supervisors for the student, are responsible for completing UND & SMHS incident reporting forms. This allows for complete reporting and appropriate follow up of any occurrence involving the health and safety of University students.

PROCEDURES

Management of Exposure Incidents
1. Immediate Care  
   Immediately
2. Post-Exposure Risk Determination & Medical Evaluation  
   Complete within 2 hours
3. Post-Exposure Mandatory Reporting  
   Complete within 24 hours
4. Incident Investigation & Report Routing

In accordance with UND Policy, mandatory reporting of incidents is required within 24 hours. The student’s health and safety is of utmost importance in this circumstance and the student must not return to activities until this is complete.

Protocol

1. Post-Exposure-Immediate Care
If you experienced a needle-stick or sharps injury, or are exposed to the blood or other body fluid of a patient during the course of your work, **immediately follow these steps** (as applicable):
   - Wash needle-stick injuries and cuts with soap and water.
   - Flush splashes to the nose, mouth, or skin with water for 10 minutes.
   - Eyes-remove contact lenses, irrigate eyes with clean water, saline, or sterile irrigants (be aware of the nearest eyewash station).
   - Report the incident to your supervisor.
   - Immediately seek medical treatment for evaluation and recommended follow up procedures.
2. Post-Exposure - Risk Determination & Medical Evaluation

- Contact the immediate supervisor (or clinical site education coordinator) to obtain the procedure and forms for appropriate risk assessment and reporting.
- UND SMHS Program of enrollment must also be contacted as soon as feasible to oversee this evaluation process.
- The student and immediate supervisor must complete the UND SMHS Bloodborne & Biological Exposure “Student Quick Form 1” & “UND Incident Reporting Form 2” within 24 hours. These forms must include signatures of the student, immediate supervisor, and medical provider.

The following information is required for risk determination; document “Student Quick Form 1”.
- Type and amount of fluid (e.g., blood, visibly bloody fluid, other potentially infectious fluid or tissue, and concentrated virus).
- Type of device causing injury, if applicable.
- Type and description of exposure (percutaneous, splash, non-intact skin, and bites etc.).

**Incident Occurrence on the UND Campus**

Medical Evaluation: UND Student Health Hours: Mon-Fri 8am-4:30pm, Tuesday 8am-6pm
After Hours: Altru Emergency Department or Urgent Care

**Incident Occurrence at Clinical Affiliation Site**

Note: Students must also follow the individual clinical sites guidelines, and the appropriate clinical personnel should be informed of the injury. All follow-up documentation is required.

**Medical Evaluation by Primary Care Provider or Emergency Facility**

**Step One - Evaluate Exposure Source**
The student’s immediate supervisor where the incident occurred will take the necessary action to request a source patient (donor of the blood or body fluid exposure) lab test workup for bloodborne or biological pathogens.

- **Bloodborne Pathogen**
  - Assess exposure source status, if applicable.
  - Obtain consent to test blood. If deceased, no consent necessary.
  - Order an exposure work-up in accordance with state statutes, to include but not limited to rapid HIV, Hepatitis B surface Antigen (HBsAg), and antibodies to HCV (anti-HCV).
  - Unknown Source: assess risk of exposed student to HBV, HCV and HIV infection.

- **Airborne Pathogen**
  - Assess exposure source status for tuberculosis (TB) or other potential biological pathogen, if applicable.

**Step Two - Evaluate Exposed Person**

- **Bloodborne Pathogen**
  - Assess current immunization status.
  - Assess Hepatitis B vaccine and vaccine response status.
  - Assess HBV, HCV, and HIV immune status.
  - Order baseline testing for HIV, HCV, anti-HBs (if applicable).
  - **Draw a 10 mL clot tube of blood, spun and separated. Transport serum on ice to UND**

- **Airborne Pathogen**
  - Assess current immunization status.
  - Assess for Tetanus-Diptheria vaccination (Td) or other airborne pathogen, if applicable.
  - Assess for current tuberculosis screening status, if applicable.
  - Order TB testing, if applicable.
Step Three - Determine Need for Post Exposure Prophylaxis

Bloodborne Pathogen

- Factors to consider for post exposure prophylaxis include the type of exposure, type and amount of fluid/tissue, infectious state of the source, and susceptibility of the exposed student.

- Prophylaxis should be started as soon as possible after HIV exposure, preferably within the first hour.

Airborne Pathogen

- Hotline for Medical Providers
  The National Clinicians’ Post Exposure Prophylaxis Hotline.
  PEPline: 1-888-448-4911 (9am-2am EST)
  Warmline: 1-800-933-3413
  Perinatal HIV Hotline: 1-888-448-8765
  Website: http://www.nccc.ucsf.edu/about_nccc/pepline/

- Follow appropriate prophylactic treatment, if applicable.
Step Four – Follow-up Care
The student is responsible for obtaining follow-up care from their personal physician as recommended during their evaluation.

3. Post-Exposure Mandatory Reporting

Completion and routing of SMHS Bloodborne & Biological Pathogen Exposure Incident Evaluation & Reporting (Form 1 & 2) are required within 24 hours of the exposure event.

Report Routing

<table>
<thead>
<tr>
<th>Student Quick Form 1</th>
<th>SMHS Deans Office</th>
<th><a href="mailto:judy.solberg@med.und.edu">judy.solberg@med.und.edu</a></th>
</tr>
</thead>
</table>

**UND Incident Reporting Form 2**
The student’s immediate supervisor must electronically submit this form within 24 hours. Form 2 is located at UND Campus Safety website: [http://und.edu/finance-operations/environmental-health-and-safety/forms.cfm](http://und.edu/finance-operations/environmental-health-and-safety/forms.cfm). Click the [SMHS only] button on the bottom of the form to notify appropriate UND contacts.

4. Incident Investigation & Report Routing

The SMHS Program Directors will be required to:
- Investigate the incident (UND Incident Investigation Form 3), verify completion of Forms 1 & 2, verify Student Health has received the student’s blood sample, and route appropriate incident reports to UND Environmental Health & Safety.
- UND SMHS Programs are required to retain a record of the exposure incident for 30 years post-graduation.

**REVISION RECORD**

02.04.14—FAC Approved  
02.04.14—Dean Approved
Step One – Immediate Care (within 1 hour of incident)

___ Exposure through a puncture/wound, cleaned with soap and water for 10 minutes.
___ Exposure through eye or mucous membrane, flushed with water or saline for 10 minutes.
___ Student reports incident to immediate student supervisor.
___ Student obtains a copy of “Bloodborne & Biological Pathogen Exposure Quick Form 1”.
___ Transport to appropriate health care provider is discussed and facilitated with the student’s immediate supervisor.

Student has obtained a medical evaluation.
Exposure incident has been communicated to UND SMHS.

**Step Three - Mandatory Reporting within 24 hours**

UND Incident Reporting Form (Form 2) completed and electronically submitted by the immediate teaching supervisor.
Link to Form 2 (Click [SMHS only] button)

Lab testing/workup of source patient ordered by immediate teaching supervisor.
- Lab tests ordered on source: HBsAg, HCV, rapid HIV, or TB.

Testing/workup results on source serum reported to the student’s health care provider.

Bloodborne Exposure:
Sample of student serum is drawn, separated, frozen and shipped by the student’s health care provider for storage at UND Student Health Services for 90 days.
Address: UND Student Health
Attention: Laboratory Supervisor
100 McCannel Hall
2891 2nd Ave. N Stop 9038
Grand Forks, ND 58202

SMHS Bloodborne & Biological Pathogen Exposure Release Form (Refusal of Care) (Form 5) completed by the student, if applicable.

Date of exposure: ______________________________   ___Student is able to assume normal tasks.
Time of exposure: ______________________________   ___Student is UNABLE to assume normal tasks.

Immediate instruction signature and date:

Student Bloodborne & Biological Pathogen Exposure Release Form (Refusal of Care) Form 4

I understand that due to my bloodborne or other potential infectious material exposure I may be at risk of acquiring HIV, HBV, and HCV, or other potential infectious pathogens.

I have been informed that it is the standard procedure after a bloodborne exposure incident to be tested for HIV, HBV, and HCV infection immediately. However, I decline to be tested for HIV, HBV, and HCV. I am signing this release form in full recognition and appreciation of the dangers, hazards and risks of not being tested for bloodborne pathogens or other biological infections.

I understand by signing this release, I am releasing and holding harmless the clinical affiliation site ______________________ and the University of North Dakota, their governing boards, officers, employees and agents from any and all liability, claims and actions arising out of this incident.

I recognize that this release means that I am giving up, among other things, the right to take legal action against the clinical affiliation site ______________ or the University of North Dakota, their governing boards, officers, employees and agents for injuries, damages or losses I may incur. I also understand that this release bind my heirs, executors, administrator, and assigns, as well as myself.

I understand that I may be potentially exposed to a communicable pathogen, I may be a potential hazard to patients, and I may be suspended from a clinical affiliation and/or program.
