

Associate Dean for Research

Reporting Relationship

Reports to the Dean

Specific Responsibilities

- Meet monthly with the VPR for ADR meetings
- Oversee Susan Holden's Office and SMHS Research Committee (ex officio)
- Oversee the Director of Learner Research to work towards a goal of 100% of medical students publishing a peer-reviewed manuscript as an author/co-author by graduation
- Continue to develop strategic growth in research expertise through strategic hires and core facility staff support and service contracts (through increasing the state budget perhaps)
- Grow preclinical research infrastructure (new CoBRE next fall and another the following fall after that), program project grants (PPG), and training grants (NIH T32, NIH T35)
- Continue supporting impressive growth of clinical/translational scholarly activity by working with clinical chairs, Wadhvani chair, and increasing interactions with DaCCoTA CTR (upon renewal)
- Increase scholarly interactions between students and faculty in Biomedical Sciences with Health Science and Clinical departments
- Increase collaborations with School of Nursing, College of Arts and Sciences, and College of Engineering and Mines
- Increase commercialization/spin off industry efforts
- Standardize pre-award support pipeline for improving grant submission efficiency
- Increase post-tenure faculty retention planning
- Consider options for incentivizing grant submission/success
- Consider space needs and possible allocation policy
