

GMEC Procedure for Review of ACGME Resident and Faculty Survey Results

1. The Graduate Medical Education Committee (GMEC) shall review and address items from the Accreditation Council for Graduate Medical Education (ACGME) Institution-Wide Resident and Faculty Surveys that meet the following criterion for institution compliance:
 - Percentage falls below 75%.
2. The ACGME Well-Being Survey does not report institutional or national compliance percentages and is not utilized in the ACGME accreditation process. Accordingly, it is excluded from this procedure.
3. Each individual residency and fellowship program is responsible for reviewing and responding to its respective ACGME Resident and Faculty Survey results. Programs are subject to the University of North Dakota School of Medicine and Health Sciences (UND SMHS) Special Review Policy and Protocol.
