Location of Elective: Campus/ROME Clinical Sites

Preceptor(s): Dr. Kamille Sherman MD/ Dr. Bryan Delage MD

Period(s) Offered: All

Number of students per period: As approved by departments

Purpose: To gain introductory experience in a specialty or subspecialty field of medicine and Explore Rural Health Equity needs of the ROME Community

Objectives: Following successful completion of this elective, the student will be able to:

1. Summarize the physician responsibilities and daily duties required for patient care in the specialty or subspecialty fields.
2. Perform physical exam skills specific to the specialty or subspecialty field. (Year 3 benchmark 3)
3. Research a patient care topic specific to the field using evidence-based resources. (Year 3 benchmark 8, 9)
4. Write and go thru the process to publish locally an education topic that serves that Rural Population. (Year 3 benchmark 1)

Instructional Activities: During this elective, the student will be involved in/experience:

1. Daily patient care activities with the preceptor of the specialty or subspecialty (one week).
2. Physical examination of patients presenting to the specialist or subspecialist physician.
3. Research of a patient care topic specific to Rural using evidence-based research resources (equivalent time devoted during ROME rotation to one week).
4. Presentation of the topic researched in #3 to the ROME Co-directors and CRH who are helping to edit the topic for publication, and follow through to get publication locally.

Criteria for Grading: During and following this elective, the ROME directors will:

1. Utilize the standardized UNDSMHS specialty exploration elective evaluation form.
2. Discuss with preceptor their direct observation of the student; evaluate the student's ability to summarize the patient care responsibilities and duties of the specialty or subspecialty field (Objective #1).
3. Discuss with preceptor their direct observation of the student's physical exam skills specific to the specialty or subspecialty (objective #2).
4. Evaluate by direct observation the student's completion of evidence-based research and presentation on a clinical topic that is Rural focused and appropriate for local health education to be published in the local newspaper. (Objectives #3 and 4)
