

## Acting Internship Description

**Campus:** (Fargo) Southeast

**Acting Internship Title:** Orthopedics Acting Internship

**Location of Acting Internship:** Sanford

**Department:** Surgery

**Course Number:** SURG 9503

**Preceptor(s):** All Sanford Fargo Orthopedic Surgical Faculty

**Period(s) offered:** All

**Number of students per period:** One

**Purpose:** To provide students with advanced experience in orthopedic surgery which allows them to develop the ability to engage in the entrustable professional activities as an intern level.

**Objectives: After completing the acting internship, the student will be able to**

1. Obtain a history and perform a physical exam  
*EPA #1 - Year 4 LO #1*
2. Present the history and physical in a concise, well-organized format  
*EPA #6 - Year 4 LO #2*
3. Form and prioritize a differential diagnosis. Select a working diagnosis.  
*EPA #2 - Year 4 LO #3*
4. Discuss orders and prescriptions and construct evidence-based management plans.  
*EPA #4 - Year 4 LO #14*
5. Select screening and diagnostic studies and labs and interpret the results of these tests.  
*EPA #3 - Year 4 LO #4 & 14*
6. Recognize patients who are critically ill or require emergent care and initiate the appropriate initial steps in that care. Reassess patients on an ongoing basis and adjust plan of care as appropriate.  
*EPA #10 – Year 4 LO #10*
7. Document the clinical encounter in a timely fashion  
*EPA #5 – Year 4 LO #2*
8. Communicate effectively with patients and their families regarding diagnoses and plans of care with respect for cultural and socioeconomic backgrounds.  
*Year 4 LO #6*
9. Work effectively as a member of the interprofessional healthcare team including giving and accepting patient handoffs at transitions of care.  
*EPA #8 & EPA #9 – Year 4 LO #7 & 8*
10. Research a clinical question relating to patient care with appropriate evaluation of resources and use of evidence-based information.  
*EPA #7 - Year 4 LO #13*
11. Formulate or update an accurate problem list for patients under his or her care.  
*EPA # 5 – Year 4 LO #5*

**Specialty Specific Objectives:** (These should be linked to EPAs and Year 4 learning objectives which can be found at <http://www.med.und.edu/education-resources/files/docs/year-four-objectives-2015.pdf>)

Please include any procedures the student will be expected to perform.

12. Obtain informed consent for procedures. EPA # 11 – Year 4 LO #

13. Demonstrate with appropriate supervision the ability to perform basic procedures in orthopedic care including arthrocentesis, cast application and removal and assist in the OR during orthopedic surgical cases. EPA # 12

**Instructional Activities:** During this elective, the student will be involved in/experience:

1. The student will assume primary responsibility of his or her assigned patients under the supervision of an upper level resident or attending.
2. Diagnosis and treatment of orthopedic conditions in the clinic, inpatient and ER settings.
3. Performing technical procedures under direct preceptor supervision.
4. Assisting in orthopedic surgery cases.
5. Evidence-based research on a clinical question pertinent to patient care.

**Evaluation Methods:** The preceptor will:

1. By direct observation, evaluate the student's ability to perform a complete history and physical pertinent to the AI specialty and present his or her findings. (objective #1,2)
2. By direct observation or review of written work, evaluate the student's ability to form a complete differential diagnosis and select a working diagnosis. (objective #3)
3. By direct observation or verbal discussion, evaluate the student's formulation of patient management plans including those for patients requiring emergent management. (objective #4, 6)
4. By direct observation, verbal discussion or review of written work, evaluate the student's selection and interpretation of screening and diagnostic laboratory tests. (objective #5)
5. By direct observation, evaluate the student's documentation of clinical encounters. (objective #7, 11)
6. By direct observation and via feedback from the healthcare team, patients, and families, evaluate the student's communication skills including patient handoffs. (objective #8,9)
7. By review of written or verbal presentation made by the student, evaluate the student's use of evidence-based information to research a patient care question. (objective #10)

8. By direct observation evaluate the student's ability to obtain informed consent (objective #12).
9. By direct observation evaluate the student's ability to perform general orthopedic procedures and assist during orthopedic surgical cases (objective #13).

## **Assessment:**

Evaluation methods #1-9 will be assessed using the Entrustability scale.

Level	Descriptor	Example
1	"I had to do"	Requires complete hands on guidance, did not do, or was not given the opportunity to do
2	"I had to talk them through"	Able to perform tasks but requires constant direction
3	"I had to prompt them from time to time"	Demonstrates some independence, but requires intermittent direction
4	"I need to be there in the room just in case"	Independence but unaware of risks and still requires supervision for safe practice
5	"I would not have needed to be there other than to fulfill regulatory requirements"	Complete independence, understand risks and performs safely, practice ready

*\*This scale was adapted from the Ottawa surgical competency operating room evaluation (O-SCORE): A tool to assess surgical competence. Acad Med. 2012; 87:1401-407.*

Please indicate who will be completing the assessment. If more than one preceptor, how will scores be compiled?

The primary preceptor will be responsible for the assessment. At the discretion of the primary preceptor additional preceptors may be asked to comment.

## **Grading Criteria:**

To receive honors, the student must: Perform at a level greater than 4.5 (average).

To pass the AI, the student must: Perform at a level greater than 2.0 up to 4.5 (average)

If the student does not pass, remediation will consist of:

If a student fails an AI, the AI director and campus dean will work with the student to form a written remediation plan (signed by all 3) that specifically addresses the competencies that the student did not meet during the rotation. A copy of this plan will be sent to Student Affairs. In order to pass the AI, the student will be required to meet the original passing requirements. A student may not receive honors on an AI that was initially failed.
