**Northwest Rehabilitation** is a manual therapy focused Physical Therapist owned Physical Therapy company that has had clinics located in Alexandria and Fergus Falls for 20+ years. Since inception, **Northwest Rehabilitation's** goal has been to be the most clinically superior clinic in every city/region we occupy. **Northwest Rehabilitation's** pursuit of clinical excellence has led two of our Alexandria Physical Therapists to achieve their national Manual Therapy Certifications (MTC-Stanley Paris), with our Fergus Falls Physical Therapist only having to take his final test in order to obtain his own MTC.

**Northwest Rehabilitation** was founded by a Physical Therapist that wanted to create a business allowing Physical Therapists to treat as the autonomous Doctors they are, gain additional revenue based on the work they perform, and lastly give them the opportunity to gain ownership in the business that they work within.

For even more information about **Northwest Rehabilitation** please refer to our website at:
