We are looking to expand our team! We are focused on providing quality health care services to rural communities. Our goal is to provide accessible services to patients that would otherwise have to drive long distances to receive care. It is important to us that we find an employee who can communicate well, provide education to patients, and construct successful plans of care. The therapist will be responsible for evaluating potential patients, documenting plans of care, tracking progress note due dates, and discharging patients appropriately. Please reach out to us if you have any questions or concerns.
