Verify the student's name and evaluation (Midterm or Final), then complete the rubric by selecting the appropriate response for each criterion. **Clicking on a rating will automatically save the rating for that criterion. You must click to another area after making a comment for it to auto-save.**

NOTE: 2 CIs Completing Assessments.

It is important to note that if there are two CIs paired with a student, they will be working on a single assessment. The portal does not support multiple users simultaneously working on an assessment. CIs will need to coordinate and add their rating and comments at different times so when they click "Save as Draft," their work will be saved in the assessment. Click "Save as Draft" regularly to refresh the page and save the contents.

The CIs will have to agree on a rating for each criterion. If one CI submits the assessment, the other CI will no longer be able to edit it, so make sure they confirm with each other prior to submission. Please have each CI sign off on their individual comments so that they can be differentiated during assessment review.

Significant Concerns

Throughout the clinical experience, students and CIs may submit “Significant Concerns” to the DCE/ADCE. These comments pertain to incidents that have occurred throughout the clinical experience or situations that are of concern to the student or clinical instructor(s). They can submit these concerns at any time.

When a Significant Concern is reported, the DCE and ADCE will receive an automated email notification. The Significant Concern button will populate as a red button next to the assessment—clicking on it will open the dialog box.

Clinical Site Profile

The Clinical Site Profile allows the CI to view CSIF (Clinical Site Information Form) details previously completed for each clinical site they are associated with.

Note CIs may NOT edit clinical site information. If there is no completed CSIF for a site, it will not appear in this list. If a CI is also assigned as a site’s Site Coordinator of Clinical Education (SCCE), they must first change their role to SCCE before being able to edit the clinical site information. Check with your program if you have been assigned to both roles.

Click View Details to view site details.

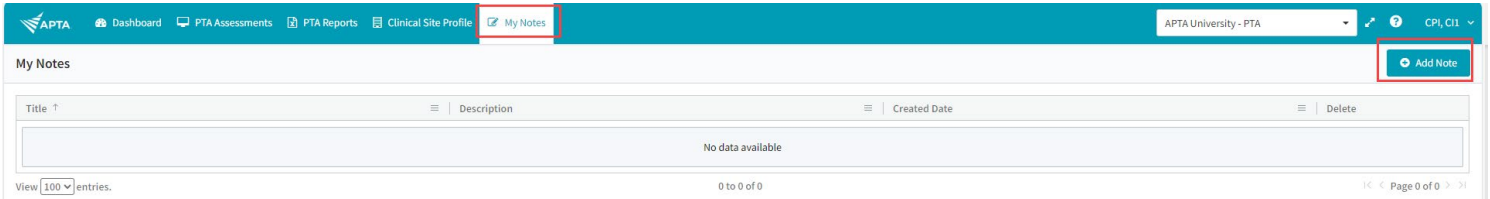

The Clinical Site Information Form (CSIF) tool is integrated with the Clinical Performance Instrument (CPI 3.0) and has been activated for your program. If you would prefer to not have this feature active, notify APTA staff at CPI2023@apta.org and they will deactivate the CSIF function.
