

GMEC Procedures for Exceptions in Resident Duty Hours

Any program that intends to submit a request to its respective RRC for exceptions in the weekly limit on duty hours (up to 10 percent or up to a maximum of 88 hours), must submit the request to the DIO and full Graduate Medical Education Committee and must receive approval by the majority of the voting membership **prior to any submissions to RRC.**

Requests to the DIO and GMEC must be in writing, and document what educational value the increased hours would have on that specific elective.

Approved by GMEC 6/30/06
