Personal Learning Network (2-page limit) During your participation as a Basic Scholars awardee, you'll be asked to construct a personal learning network (PLN), which is a network of people, organizations, and publications from which you'll receive continuing support during your participation in and following your graduation from the Basic Scholars program. The Professional Development Core and the DaCCoTA believe that overall success in research is based on engagement within the interdisciplinary scientific community. You'll describe your current PLN by answering the following questions:

- o If you need advice or support in your research, whom do you ask first?
- o When it comes to reading peer-reviewed literature, what are your habits e.g how often do you read? What do you read? What would you like to read more of?
- o How do you learn about developments in your field?

You'll describe what you'd like your PLN to become by answering the following questions:

- o In your field, whom do you wish to become better acquainted with?
- o What organizations do you wish to better acquainted with?
- o What will your engagement look like with peer-reviewed literature in the future?

LETTER OF SUPPORT

Letters of Collaboration and Support:

- o Letters from the proposed mentors indicating willingness to play this role and how they will assist with the development plan.

- o Letters of support from mentors' and collaborators' supervisor(s) stating that they are approved to work on the project and can dedicate their time towards it

- o Letter of approval for the project from the Biostatistics, Epidemiology, and Research Design Core endorsing the project as statistically sound, as well as letters from any other Core whose resources will be required for the project to be completed.
